FESTIVAL GUIDE 2010

festival

WELCOME TO THE IMAGE FESTIVAL ROTTERDAM

Open up your eyes, enter the Image Festival. Meet and greet dedicated producers of images, movies, animations, graphic design and many more. This year the Image Festival will take place from 15 until 31 October in the centre of Rotterdam. The festival's theme is 'Image & Music'. Be amazed by unimaginable cross-overs and co-creations. Learn about the hows, the whys and what they can do for you. Get updated on what is going on in the professional world of imagery. Visit the exhibitionary Image Festival 'Around Town' with works of some of the greatest image artists. Get image inspired, get image nourished, get image entertained, get image festivalled.

The Image Festival collaborates with media institutes, educational centers and with creative and cultural networks and aims to stimulate the relationships and co-operation between these institutes. Finally we include initiatives and festivals in the field, both from the Netherlands and abroad. A festival like this, offering selections spanning a wide variety of the image couldn't have been made possible without the help and efforts of many colleagues, volunteers and especially the OBR, Willem de Kooning Academy Rotterdam University, the Rotterdam Media Commission and our counsel.

Be sure to catch some of our highlights during the festival like the exhibitions, screenings and keynotes in the Cinerama, the huge 3D mapping at the Unie, the mixed media exhibition at Roodkapje and of course the parties we set up for you!

DIGITAL WORKSHOPS

LOGIC STUDIO BY MARTIJN DE LA HAYE

Logic Studio is a complete set of professional applications that lets you write, record, edit, mix, and perform. It's also the largest collection of modeled instruments, sampler instruments, effect plug-ins, and audio loops ever put in a single box. Martijn works with and for some impressive names such as ID&Q, Demia, Dicky Curtis and The Joy Supreme. With Martijn's experience and knowledge throughout the years, this special iLearn workshop will be a 'must' for the ones who are willing to dive into the world of Logic Studio.

DIGITAL ART BY ALEX CONSTANTIN AKA JOHN MARIMOTO

Alex's most precious works are his personal art projects, which he calls the 'G1 Dimensions'. These are his own creative perspectives to the world, which are made in both digital and traditional productions. During the iLearn Alex will discuss his digital art through his own perspective by using the Mac, some corresponding software and tools.

Number of participants is limited, so please register via e-mail: ilearn010@machouse.nl, more information at www.machouse.nl.

→ THURSDAY 28 OCT & FRIDAY 29 OCT / 13:00 - 14:30 HRS

02. GOETHE-INSTITUTE

WESTERSINGEL 9

DIGITAL FOLKLORE WORKSHOP

During this one day workshop, artist-in-residence Olia Lialina and the MODDR_ labs of WORM will introduce you to various forms of digital folklore, from screen designs to hardware hacks: media that do not conform to the slick image of electronic high tech, and reveal interesting artistic qualities in their seeming bad taste and kitsch. Participants will be invited to build, break and broadcast the digital folklore of their own choice.

In collaboration with the Master programme Media Design and Communication: Networked Media and the research programme Communication in a Digital Age of the Piet Zwart Institute, Willem de Kooning Academy Rotterdam University. Number of participants is limited, so please register via e-mail: l.j.drost-robbins@hro.nl.

03. ROODKAPJE

MEENT 119-133

RON VAN DER ENDE: FORESHORTENED SPACE

Ron van der Ende is a Rotterdam based sculptor. He specializes in wall mounted bas-reliefs constructed from found wood. The original color and texture of the wood is utilized to form a sometimes photorealistic mosaic. The realism is further enhanced by the perspective built into the relief. Van der Ende uses his method to conjure up dark industrial and space age imagery.

TAPELOUNGE / MARTIN ROEDOLF

Martin will have his design 'tapedeck table', playing music from old original cassette tapes, screen his visuals and invite several deejay friends who will be mixing from their own home made tapes. Bring your old cassette tapes and join the mix! Have a beer, sit back, browse some magazines and enjoy the best veggie burgers in town.

THE LORD OF THE LOGOS / CHRISTOPHE SZPAJDEL

Christophe Szpajdel, born 1970 in Gembloux, Belgium started drawing when he was just three years old. Already in his early years, fascinated by both nature and the dark side of this world, he forged his vocation in art. Szpajdel began designing logos for metal bands in the nineties, and thousands of logos later: the artwork of Christophe Szpajdel stands out among the rest.

LOGOLABEXPO / STUDENTS OF THE WDKA

Last September, a group of 50 Willem de Kooning Academy students started a project in which they had to come up with a guerrilla advertising campaign for the Image Festival. The image and artwork had to be based on the words derived from the abbreviation I.M.G. The outcome of the project is shown at Roodkapje.

O.K. FESTIVAL / MUSIC MAGAZINES

O.K. Festival initiators Joost van der Steen and William van Giessen collated a sub - exhibition of their own independent magazine - exhibition. In Roodkapje they focus on just one aspect of the trade: the music magazine. In collaboration with O.K. Festival we invited the British music magazine designer Jeremy Leslie to be one of the keynote speakers at the Image Festival.

LAUNCH O.K. PERIODICALS #5

'O.K. Periodicals' is an independent magazine published twice a year by O.K. Parking. Each edition has a different theme and offers a stage for established and upcoming creative talent. On 30 October we will launch the fifth issue of 'O.K. Periodicals', accompanied by O.K. Parking. This new issue is promised to be another one with lots of new work from young creative talents!

04. DE UNIE

MAURITSWEG 34-35

NOORDERLICHT INVITES LOWRIDERS COLLECTIVE

On Thursday 28 till Saturday 30 October De Unie will be transformed into a kaleidoscope-like temple of light and sound: 3D Mapping by David Louf/ Outoforder, the Fenno Werkmanshow - The First Hundred Years of Music Video Clips, screenings of OneDotZero and Motionographer and on Friday 29 October Noorderlicht puts on the programme they and Lowriders have composed especially for the Image Festival. Based on music in which visuals are important if not essential. Get ready to immerse yourself in a sea of interactive light installations and wild yet danceable music.

Marco Broeders and Erik Ruttgers of Noorderlicht will present analogue projections using large rotating slides from their own lab. Joris Strijbos, one of the driving forces behind 'Macular', is a Rotterdam based artist who works in the field of expanded or live cinema. De Oplichters use old or self-made and adapted video equipment for their performances. They make compositions in real-time in which they use cameras, video mixers, screens, overhead projectors, lasers, lamps, paper, insects, musical instruments and more.

www.co2ro.nl

www.jorisstrijbos.nl

David Louf is part of the multidisciplinary artistic duo Out of Order and works as a graphic designer and video artist. He will create for three days in a row a splendid fusing of image and sound at De Unie, creating a live soundscape by video mapping.

www.outoforder.nl

Slugabed is a British producer and deejay whose work balances between dubstep and hip-hop. His mix of G-funk, sexy sci-fi electro, boombap and hip-hop creates a new kind of explosive energy. It will be a great party, full of energy and smiles from ear to ear. Those familiar with the Lowriders' parties know they can expect a thrilling mix of all contemporary music styles, with energy and celebration being key. Expect styles like UK funky, garage, boogie, skweee, hip-hop, beats, dubstep and grime all fused into an explosive whole. The Lowriders dj team will consist of Ruwedata, SIMcommander, Coco Bryce, Off Hand and Halp, who will make his debut here.

OUDE BINNENWEG 121A

WINDOW EXHIBITION

At the Velvet Music Store, one of the best record stores in Rotterdam, we will show a selection of tribute record sleeves made by numerous artists as homage to their favorite song or album. Later this year the prestigious book project '140 Hits in Art' of Klaas Wijnberg will be published. As a prequel to this book of 140 artists who pictured their favored music piece we selected our darlings and will be displaying them at the Velvet window.

As you might know the record sleeve is on it's way back. Who wants a cd sleeve if you can have the full size version? Artists like Zeptonn, Wouter Tulp, Hedof, Shamrock, Ottograph, Sauerkids and Johan Weggis have contributed to this coffee table book of 31x31 cm, the real size of the original record sleeve.

WINDOW EXHIBITION

HOMAGE TO MICHEL LAGUENS

Michel Laguens (France 1940) photographed the great and famous, like Jacques Brel, Brigitte Bardot, Salvador Dali, Jean-Paul Sartre and Orson Welles.

Laguens' some what static portraits of his models evolved from the sixties to the 'sexy girls' in the eighties, Hamilton, king of the blur, like, evocative but never vulgar.

He became world famous for his record sleeves but his semi-bare suggestive cute eroticism blonde and dark models sadly remained anonymous. One should worthily celebrate Laguens and pay tribute these girls by a retrospective at the Photo Museum and a beautiful Taschen catalog. But till that time, we now have his homage at Demonfuzz.

ROB VAN DER HOEVEN & BIRGIT VERWER

Although Rob van der Hoeven uses the occasional cliché, he does it in such an ironic and ingenious way that the view he presents is both palatable and unfamiliar. Rob's works, pressed from molds in polystyrene, are almost iconic through their use of just a few colors per work and the translation of ideas into simple, cartoon-like, images. His socially critical works mostly express the complexity of our society in which the relation between offender and victim can be unclear. His images are presented in bite-size pieces with just one message per work, reinforced by a text.

Birgit Verwer's impressive and exuberant sculptures are assembled from found and collected materials and have a socially critical aspect to them. The glamorous decors of eighties game shows are mainly what inspires her. On closer examination, these decors were not at all as glamorous as they appeared to be: they were merely facades in which nothing was what it seemed to be and in which life was presented as a game.

ARTVERTISER WALKS

Artists Julian Oliver and Damian Stewart will lead special walks through central Rotterdam. With the aid of their augmented-reality tool The Artvertiser, the artists will introduce participants to a city in which billboards have been replaced by artworks.

The Artvertiser is a special pair of binoculars that replaces street advertising with artworks using augmented reality technology. Take a walk with The Artvertiser and you'll find yourself surrounded by artworks where unsuspecting passersby see only ads. With this project, Julian Oliver and Damian Stewart take back the street from the businesses that dominate public space with their commercial messages, making it available for art.

Besides leading the walks, Julian Oliver will also speak on Friday 29 October at the Cinerama cinema. The Artvertiser Walks will start with an introduction by Julian Oliver at V2_.

Number of participants is limited, so please register via e-mail: reservations@v2.nl. The walks will take about one hour.

POSTERS BY MICHEL CASARRAMONA

An exhibition with the works of Swiss graphic designer Michel Casarramona. He has designed posters and other artwork for music venues and bands and is known for his fantastic use of caricature, custom typography and color in his silkscreen posters. Casarramona is also one of the guest speakers at the festival where he will show his sketches and personal inspirations.

All of Casarramona's illustrations are handdrawn with pencil and/or brush. His influences are the art and graphic design of the last century, which explains the retro-inspired look and feel of his work. Casarramona works on commission for The New Yorker, Blue Q and Albin snowboards.

THE RELIC SIDESHOW / IF YOU BELIEVE IN ROCK AND ROLL...

The Relic Sideshow is a travelling exhibition of pop-relics by artist Sander van Bussel.

Van Bussel (1970) works as an artist/ designer. Recent projects are 'Ambassade van het Hoofdhanglied', a way to collect and remove songs that stick in your head, 'Het Sterkste Verhaal van Nederland' a competition in telling strong stories and 'Book To Be' publishing books that still have to be written. Last two are projects of Tilburg CowBoys, a collective of three of which Van Bussel is co-founder and member that initiates and realizes different art projects since 2001.

SAUERKIDS ON DISPLAY

Sauerkids is Mark Moget and Taco Sipma, an artist duo based in Rotterdam, the Netherlands. Besides their current day jobs as graphic designers, they started the label Sauerkids on the side

as an outlet for their non-client based work. Their character based art has been shown in several exhibitions, art projects and various magazines & books (Pictoplasma Encyclopaedia, Latex for Fun, Hi-Fructose magazine, IDN Magazine). They've been accused of 'being on medication' or 'sick' (in a good way), but in the end their work is probably best described as a combination of innocent childhood imagery and the mental confusion of everyday life.

CONTENT FOR URBAN SCREENS

City Media is a new digital network made up of websites and large screens in public spaces. City Media presents local and international news & special reports in a 21st-century style: short, impactful and visually appealing. Apart from the latest news, City Media also covers all major developments in the fields of sport, business, entertainment, fashion, art and architecture. The daily programming runs from 06:00 to 01:00 hrs in a variety of locations. In the last two years City Media commissioned hundreds of animations and movie clips. On 3 screens we will show their 'best-of'.

MICHEL LINSSSEN / FIFTY!

Michel Linssen (The Hague, 1960) started his career as a rock photographer in the early eighties. He worked for several Dutch magazines. His photos were published on the covers of Jan Douwe Kroeske's '2 Meter Sessies' and on almost all the CD covers for Hallo Venray. During a 2 Meter Radio Session in 1992 he made photos of Kurt Cobain. Photos from this series became famous worldwide and were published on numerous magazine covers in the USA and the UK.

Michel Linssen lives and works in Rotterdam and will celebrate his fiftieth birthday on 15 October at V!P's Gallery Rotterdam. This birthday party is also the opening reception of FIFTY!, a photo exhibition with fifty black and white photos of Madonna, the Red Hot Chili Peppers, Johnny Cash, Herman Brood, Bruce Springsteen, Kurt Cobain, Anouk, Johnny Rotten and many more. On both days, Friday 15 and Saturday 30 October the artist will be present.
